RAY ANGELO B. AGUILOS

Information Systems Graduate | Web Developer | Business Analytics | Machine Learning

ray.aguilos662@gmail.com | +639062421692

SUMMARY

Information Systems graduate specializing in Business Analytics with experience in web development and applied machine learning. Currently pursuing a Machine Learning Internship focused on real-world search and analytics data, including embeddings, clustering, intent classification, opportunity scoring, and insight-to-action reporting. Strong foundation in data analytics, business analytics, web development, and project management.

EDUCATION

Technological Institute of the Philippines – Quezon City
Bachelor of Science in Information Systems, Specialized in Business Analytics
2021 – 2025

EXPERIENCE

Machine Learning Engineering Intern | FlyRank AI | July 2026 – September 2026

- Applied machine learning techniques to search and analytics data, including embeddings, clustering, intent classification, and opportunity scoring, to identify patterns and develop actionable decision-support insights.

Web Developer Intern | Redwizard Events | March 2025 – May 2025

- Developed and maintained WordPress-based company and event websites, integrating plugins, APIs, and registration functionality while supporting registration database management.

PROJECTS

Using Random Forest-Based Performance Signals to Prioritize SEO Content Review

- Developed a Random Forest-based decision-support model using search and engagement signals to prioritize SEO content observations for potential review or refresh.

CarGo: Progressive Web Application for Car Rental Service

- Developed a progressive web application with booking, vehicle management, payment, and analytics features to improve car rental operations.

IoT Conference Website

- Developed and maintained an event website using WordPress, integrating website features and registration functionality to support conference operations.

SKILLS & INTERESTS

Technical: Python, Java, SQL, TypeScript, HTML/CSS, Machine Learning, Data Analytics, Business Analytics, Search Analytics, Embeddings, Clustering, Intent Classification, Opportunity Scoring, Database Management, Web Development, Git/GitHub, AI-Assisted Development
Laboratory: Microsoft 365, Google Workspace, Canva, Visual Studio Code, Google Colab, DuckDB, Oracle Live SQL, WordPress CMS, Google Analytics, Claude, ChatGPT, Gemini, Perplexity, Netlify
Languages: English (Fluent), Filipino (Fluent)
Interests: Data Analytics, Business Analytics, Machine Learning, Artificial Intelligence, AI Productivity Tools, Project Management, Technology Innovation, Search Intelligence, Web Development

CERTIFICATIONS

- Python Data Associate – DataCamp – 2026
- Data Annotation for Aspiring BPO Professionals – University of the Philippines Open University (UPOU) – 2026
- Risk Analysis for Project Management – University of the Philippines Open University (UPOU) – 2026
- AI Engineer for Developers Associate – DataCamp – 2025
- Data Analyst Associate – DataCamp – 2025
- Google Analytics for Beginners – Google – 2024
- Introduction to Data Studio – Google – 2024
- Enterprise Design Thinking Practitioner – IBM – 2023
- Enterprise Design Thinking Team Essentials for AI – IBM – 2023
- Lean Six Sigma White Belt – CertiProf – 2023
